

JamesHardie®

Colour Match information

Our colour range has been developed with leading industry experts and is bespoke to James Hardie cladding products. Therefore our range will not match all of the available colour standards exactly. The RAL colour codes provided below are approximate and should be used for guidance purposes only.

All our fibre cement products come with the ColourPlus™ Technology finish and are backed by a 15-year warranty that covers paint and product, protecting against peeling, cracking, and chipping.

For more detailed information on the unique ColourPlus™ Technology please visit: www.jameshardie.co.uk/colourplus

James Hardie Colour	RAL closest visual match	James Hardie Colour	RAL closest visual match	James Hardie Colour	RAL closest visual match
